

## Table of Contents

### Below is a list of the 2018 Qualified Clinical Data Registries for MIPS

*Disclaimer: The Merit-based Incentive Payment System (MIPS) Final approved 2018 Qualified Clinical Data Registries (QCDRs) List is a list of all entities that are authorized by the Centers for Medicare & Medicaid Services (CMS) to submit Quality Measures (MIPS quality measures and/or QCDR measures), Advancing Care Information Measures, and/or Improvement Activities on behalf of MIPS-eligible clinicians, groups, and/or virtual groups for purposes of MIPS for the 2018 performance year. CMS has not otherwise evaluated the capabilities, quality, or any other features of any specific entity or its products referenced on the MIPS Final approved 2018 QCDR list. Reference to any specific entity, commercial product, process, or service (collectively, "specific entity or its products") on the MIPS Final approved 2018 QCDR list does not constitute any endorsement or recommendation of the specific entity or its products by CMS or the United States Government. Such reference does not imply that a specific entity or its products meets any other federal health care program requirements applicable to the entity or its products or to MIPS-eligible clinicians, groups, and/or virtual groups on whose behalf the entity submits data to CMS. Prior to selecting or using any specific entity or its products, MIPS-eligible clinicians, groups, and/or virtual groups should perform their own due diligence on the entity and its products, including contacting the entity directly to learn more about its products.*
